Highland Spice
Production & Herd
Reduction Sale

November 21, 2023
1:00 p.m.

Welcome to our Highland Spice Production and Herd Reduction Sale!

We are delighted to offer you an outstanding set of Highland cattle. We did not make these selections easily – they are all cattle that we have been happy to keep. They add value to our herd and to the Highland breed – they will work for you, too. Our goal was to put something in the sale that would fit each of our buyer's operations. We believe that being honest about our cattle will help them find the perfect home – no Highland cow is perfect. We hope that all of you – from the hobby farmer to the kid who wants to win NWSS – will find the perfect Highland in our sale. Each of these cattle all bring different strengths to advance your program. We are happy to support all our purchasers after the sale. When you purchase from Highland Spice, you don't just get the cow, you get us!

Angie's roots run deep in Johnson County, Wyoming. Her family homesteaded in Johnson County and have run livestock here ever since. Angie, Scott, and their son Kelvin enjoy raising Highland cattle not just because they are fun and different, but because they thrive in cold, windy Wyoming. Our cattle are not acclimated to the South or to persistently warm weather. Our focus is raising hardy, docile, functional Highland cattle with the elite look that has become expected from Highland Spice.

Our cattle are registered with the American Highland Cattle Association. We have selected and bred cattle from the best Scottish, Canadian, and American bloodlines – cow families and sire lines that have proven themselves to us in the show ring and every day on the ranch. We are excited to be able to share those cattle and genetics with you in this sale. Some of you know, we don't sell very many very often! We have gone through trailer loads of cattle to find the good ones, so you can buy here knowing what you are getting. You don't have to do the sorting.

For our show exhibitors – we have signed the Premium Females up for NWSS 2024. They unfortunately cannot change ownership in AHCA until after the show. However, we will do what we can to get them ready for you to show, and look forward to seeing them in Denver... or in a photo happily at your home, while we have a drink together in Denver!

Our friends Christopher and Brandee Likes at Taunton Farms were kind enough to bring two very special cattle to the line-up: one lovely white heifer, the other bull calf out of our favorite female, Summit Ranch Gretta. Gretta is almost human, but sweeter. Check them out.

A special thank you to the Likes Family, Skyler Anderson, Jason Paulson and Julianne Motis, Becky Podio, Scott and Sam Fraser, Buffalo Livestock Marketing, and all our Highland friends and family for their help putting this sale together. We couldn't do any of this without you!

We look forward to seeing all of you in November! Until then, please call Angie with any questions or to discuss the cattle. (307) 620-5828

TERMS & CONDITIONS

Approved Buyers - No buyers whose cattle reside in the following states are allowed to purchase in this sale: FL, GA, AL, MS, LA, TX. These cattle are not bred for the South and are not acclimated to hot weather. They are not recommended for hot regions. We have had issues with reproductivity, etc. when our cattle have been taken to the South. There will be a \$10,000.00 fine assessed to anyone who purchases cattle from this auction and allows them to reside in or sells cattle to one of the listed states within two years. Seller reserves the right to reject any bidder. These terms are solely for the health and welfare of our cattle.

Warranties - EXCEPT FOR THOSE STATED IN THE BELOW TERMS AND CONDITIONS, THERE ARE NO WARRANTIES, EITHER EXPRESSED OR IMPLIED, AS TO THE MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE CATTLE BEING SOLD.

AHCA Registration

Seller will submit applications to transfer ownership of AHCA registered cattle to Buyer once cattle are paid for and within two weeks of Sale.

Payment

Cash or check on sale day before load-out unless other arrangements have been made. Online purchasers will receive an email invoice which must be paid by wire transfer or check within one week of purchase and prior to taking possession.

Risk of Loss

Each animal becomes property and risk of Buyer as soon as it is sold. Purchasers may wish to insure their purchases, which is recommended.

Care of Animals Pending Pick-Up - Seller will provide feed and care for the cattle until they are loaded for transport. If Buyers do not pick up their cattle immediately after they are paid for and released by Buffalo Livestock Marketing (the "Sale Barn"), OR make arrangements with the Sale Barn to keep cattle there until prompt pick-up, all cattle will be transported back to Highland Spice after the auction to await pick-up. If you are not present in person at the sale and you do not want your cattle transported back to Highland Spice after the sale, you must notify Angie by phone or text immediately after the sale.

Board - Cattle not picked up by December 1, 2023 may be boarded at Highland Spice for \$5.00/day until December 31, 2023. NO CATTLE shall remain at Highland Spice after December 31, 2023 unless arrangements are made with Highland Spice for later pickup.

Delivery - Highland Spice will transport cattle at no charge to the following "hubs" to meet buyers or transporters on mutually agreed upon dates: Rapid City, SD; Billings, MT; Cheyenne, WY.

Transporters - Cattle may not be transported on any load which is expected to take more than 72 hours to reach Buyer's farm. Exceptions will be made where cattle are unloaded and rested in-route. Recommended transporters:

REB Transportation, Inc. (Rob Beeler) - State Center, IA - (515) 360-1764, Brandon Bertsche, Onida SD - (815) 867-0547

Turn and Burn Livestock Transportation LLC, Vernal, UT - (435) 315-5970

Health/Vaccinations - All animals are eligible for interstate shipment within the USA. Canadian buyers, please allow three weeks for export paperwork and testing to be completed. All calves will have received two rounds of Pyramid 5 + Prespense and Vision 7 Somnus by sale time and have been vaccinated for pink eye. Calves will be wormed, given Nasalgen 3+pmh and Endovac within three weeks of the sale. Bred females were given Virashield 6 VL+ in the Spring of 2023. All cattle are BVD-PI tested free. All females over one year of age have been vaccinated for brucellosis "Bangs Vaccinated." Bred females have been confirmed pregnant unless announced otherwise at time of sale.

Feed - All calves will be weaned onto a 14 percent high-fiber pellet and free choice hay to help with the transition from milk to hay and assist with rumen development. We typically feed 2-3 pounds per calf per day from about a week prior to weaning, through the winter. They can transition onto any program from this weaning regimen very easily.

Premium Females ☆ - We have designated four females in our sale as "premium females." Taking nothing away from the other cattle for sale, these are our "breeder's pick" females that we think can compete with the best Highlands anywhere. These females qualify for our "Golden Ticket Buyer's Appreciation Credit" issued to our past auction semen purchasers. Golden Tickets are personal to the holder and must be presented at the time payment.

Retained Embryo Interest - Highland Spice retains a 50 percent embryo interest on Lots 1-12. These females may not be flushed/aspirated until they have had one natural born calf. No more than eight (8) embryos shall be recovered from any of these females by any party, ever, unless the number of embryos recovered from two flushes/aspirations exceeds eight (8) embryos.

Announcements - Announcements from the auction block shall take precedence over the sale catalog and any additional printed information regarding animal(s) sold.

Liability - Everyone attending the sale does so at his or her own risk.

REFERENCE SIRES

Schon Boden's Levi (D) AHCA Reg. #57320

Levi brings performance and maternal genetics to the table. Both his Granddam and Great-Granddam produced 15 calves. Levi has five Impact Sires and one Impact Dam in his immediate background. Sire of Lots 5, 7, 8 -10, 13, 15 and 23.

Levi's Sire, Argyll's Jaco (D)

Trafalgar Finley (ET,PV,D) AHCA Reg. #56929

You can't get any better than Trafalgar Square Farm. They have been in this business longer than most of us and created this big beautiful bull from time-tested, productive lines proven to be successful in the ring and the pasture. Sire of Lots 6 and 18.

Keltie of Highland Spice (D) AHCA Reg. #62517

Keltie was purchased by Kamryn Carden of Wyoming Heritage Highlands as a calf and under her expertise has been successful in the show ring. Kamryn was nice enough to let him come back to Highland Spice to breed a couple of females and we were lucky to get Myrtle (Lot 3).

1

Highland Spice Marguerite (PV, D)

Dun Heifer Calf born 3/25/23 AHCA Reg. #66478 BW: 65 lbs

Emerson of Willow Glen (D)

AHCA Reg. #59528

Flatheads Fortnum (PV,D)

 Sweetbrier Saizibella
 LEA Denovan Adam (D)
 CBS Onyx 10Y (D)
 Summit Ranch Rubylyn (AI)
 Flatheads Glenesk (D)
 Flatheads Littlemill
 Flatheads Spring (D)

Marguerite has it all. Her dam has a great udder, good feet, and is an excellent mom. We like Marguerite's depth, squareness behind and femininity. She is one we would love to add to our cow herd and she will fit about any program. Turn her out and make babies, put her in your front pasture and make your neighbors jealous, or make her famous in the show ring.

2

Highland Spice Masala (PV,D)

Red Heifer Calf born 5/01/23 AHCA Reg. #66489 BW: 65 lbs

Highland Spice Hickory (D)

AHCA Reg. #59533

HS Josanna (D)

AHCA Reg. #60822

Uallach Dubh 6th of Pollok (D)
 Legend of Cathach Heritage 15C -16727-
 M'Lady of Latheron Heritage CA 12705

 Ben Eniglair of Scone Palace (D)
 Summit Ranch Fritz (ET,PV,D)
 Yarnelle Farms Betula (AI,D)
 Beauregard of Willow Glen
 Everly of Willow Glen
 Clachan Glas Rebekke 9R

Masala is unique. She's one of just a handful of Hickory heifer calves in existence and is out of a really cool first-calf heifer. Her dam is the daughter of a cow we picked out of the Willow Glen heifer crop for her conformation and exceptional parents. Her maternal grand-sire is one of the sweetest bulls we have had the pleasure of owning, Summit Ranch Fritz, aka "Little Gary," bred by late Highland legend Gary Krumenauer. With two grand-sires who are direct Scottish imports, a Canadian import grand-dam and another grand-dam who is one of our best producing cows, Masala is a custom blend you won't find elsewhere.

3

Myrtle of Highland Spice (D)

Black Heifer Calf born 3/27/23 AHCA Reg. #66479 BW: 65 lbs

Keltie of Highland Spice (D)

AHCA Reg. #62517

Clearwater's Delilah

AHCA Reg. #60379

 Golly of Willow Glen
 Constance of Willow Glen
 Jackhammer of Hawthorn Brae
 Colt's Lucky (D)
 MSH Lady O'Seanasey*
 Shat Acres Diva
 Clearwater's Dorothy
 Silva's Dixie

Myrtle is a thick, smooth heifer by a bull we love. She's got all the famous stuff on the top side combined with some of the best Canadian genetics we have found. Born to a first-calf heifer with some cool older bloodlines that go back to Highland Spice Independence - a very thick short-legged bull who we exported to Canada in the 1990s. Myrtle has a great temperament like her parents, and would make a fun show calf or a calf for more "hands on" operations.

HEIFER CALVES

4

Highland Spice Meadow Rue (PV,D)

Sweetbrier Saizibella
Skye High Yukon Sun (D)
PRG McGowan (D)
Du Boise Arielle -16123-
Double LL Gillium (D)
Flatheads Ardbeg (D)
Flatheads Anabelle

"Rue" has the cutest face! She was born to a smart first calf heifer without assistance of any kind in cold weather. Rue has a unique pedigree and should make a hell of a cow with excellent functional traits. She is the daughter of one of our herd bulls, Emerson of Willow Glen (sire to the 2021 National Champion Female), and out of a cow whose top side includes National Champion bulls and eastern Canadian imported bloodlines.

5

Mulberry of Highland Spice (PV,D)

Black Heifer Calf born 4/10/23 AHCA Reg. #66483 BW: 60 lbs

Schon Boden's Levi (D)
AHCA Reg. #57320

Skye High Yukon Sun (D)
PRG McGowan (D)
Du Boise Arielle -16123-
Flatheads Catto's (D)
Flatheads Aultmore (PV,D)
Flatheads Clynelish (PV,D)

Mulberry is a gorgeous calf from a super female line. Her dam is a first calf heifer who calved with no assistance and is a fantastic mom with excellent udder structure. Mulberry's dam and grand-dam are big black cows with great udders who are consistent producers. On the sire side are powerful performance genetics combined with an Elite Impact Dam. We expect Mulberry to make an efficient, productive cow with a good udder and maternal ability. Mulberry's dam has an excellent disposition.

6

Highland Spice Mistletoe (PV,D)

Red Heifer Calf born 5/1/23 AHCA Reg. #66490 BW: 60 lbs

Trafalgar Finley (ET,PV,D)
AHCA Reg. #56929

Flatheads Clansman (D)
AHCA Reg. #59353

EZ Acres Fritzie
Knight of Five Star Farm (D)
Sebastian of Five Star (D)
Lillian of Five Star Farm (AI)
Flatheads McGregor (PV,D)
T5 Skye
Flatheads Mikenna (D)

Mistletoe's sire is a full sibling to EZ Acres Pauline, one of the most influential cows in the Highland breed having won three champion titles at NWSS. Finley himself won two division championships at NWSS and had several big wins on the East Coast before coming west. Finley's sire, Trafalgar Luther, was National Champion Bull in 2004. On the dam side, this heifer is as good as they come with Sebastian of Five Star (son of 2002 Reserve National Champion Bull and out of a Cow who was National Champion Cow/Calf in 2008) and T5 Skye, a really cool old-style cow who has the best udder at 14 years old.

7

Highland Spic Monarch (PV,D)

Black Heifer Calf born 4/16/23 AHCA Reg. #66484 BW: 65 lbs

Schon Boden's Levi (D)
AHCA Reg. #57320

Flatheads Clynelish (PV,D)
AHCA Reg. #46928

Schon Boden's Claire
DH MacIntosh 8H (D)
Double LL Gillium (D)
Susie Q
Flathead Glenlivet (D)
Flatheads Roni (D)
GCR Begonia (D)

Monarch's name is of course due to her ears, which are highly set and slightly hilarious cropped ears. Crop ear comes from Scotland and isn't for everyone, but some people like the Scottish legends about it and this heifer wears it well. Monarch's dam is still a "no problem" producer at 15 years old and is a great mother. With powerful HSC Rebel's Jack, the 2013 Reserve National Champion Bull, and an Elite Impact Dam grandmother the top side, this heifer is bred to be an excellent producer.

8

Highland Spic Matcha (PV,D)

Red Heifer Calf born 4/23/23 AHCA Reg. #66487 BW: 80 lbs

Schon Boden's Levi (D)
AHCA Reg. #57320

Flatheads Mortlach (PV,D)
AHCA Reg. #59347

HSC Rebel's Jack (D)

Schon Boden's Lydia**
Schon Boden's Claire
LEA Denovan Adam (D)
CBS Onyx 10Y (D)
Summit Ranch Rubylyn (AI)
Flatheads Catto's (D)
Flatheads Raineach (D)
Flatheads Jetta (PV,D)

Matcha has been a standout from the beginning for her thickness and style. Her dam is a reasonably tempered younger cow with many of the popular genetics from the 1990s. Matcha was a big calf at birth, so we recommend breeding her to a lighter birth weight bull (such as Angus 8th of Dunvegan, Hickory, etc.) when she is a breeding age heifer. Matcha will make a lovely cow and will be competitive in the show ring, too.

9

Marea of Highland Spic (PV,D)

Yellow Heifer Calf born 5/20/23 AHCA Reg. #66492 BW: 60 lbs

Schon Boden's Levi (D)
AHCA Reg. #57320

Flatheads Braemar (PV,D)
AHCA Reg. #46933

HSC Rebel's Jack (D)
Argyll's Jaco (D)

Schon Boden's Lydia**
Schon Boden's Claire
Luhr Selkirk Mt. Hercules (D)
GCR Pompey (D)
Lady Vanesa of Padilla
Duncan of West Wind (D)
Flatheads Pride (D)
Flatheads Carol (D)

Marea is a powerhouse blonde heifer out of a 15 year old dam who is a pretty, useful functional Highland momma and has raised 10 registered progeny. You won't find these old bloodlines in the first couple generations very often. Marea has a very unique big hip and has been a fast-growing, easy fleshing calf. Her full sister is in our herd and we couldn't like her more for her early maturity, balance and size.

HEIFER CALVES

10

Highland Spice Margosa (PV,D)

H.S. Vivian
Cape St. Mary's Velvet

Margosa is a favorite, as is her dam Ostag. We are obsessed with Ostag and her progeny - so much so that we have tried to keep and collect as many from her female line as possible for the past several years. They are early maturing, easy fleshing cattle with a lot of bone and huge horns - they are all stamped the same and are easily our best cows. Now we have three bulls from that line, so we are offering Margosa and her full sister, Flatheads Timber (Lot 23) to you in this sale. Calf has crop ear.

11

Highland Spice Midnight Tryst (PV,D)

Named for the prettiest Hibiscus and after her maternal sister, HS Hibiscus Rose, the 2022 National Champion Female. We think this heifer will put you on the map and in the winner's circle. We've never had a bad one from her dam, and Hickory's progeny are winning everywhere. Both of "Midnight's" parents have extremely good temperaments, which they have consistently passed on to their progeny. Midnight has an outcross pedigree to most Highlands in the USA and is just so, so nice. One like this doesn't come around often.

12

Melaleuca of Highland Spice (D)

Red Heifer Calf born 4/18/23 AHCA Reg. #66485 BW: 60 lbs

Highland Spice Hickory (D)

Gusgurlach of Windrush - 6015- (D)
Surlach of Sweetbriar
Sweetbriar Nanna Lass
Sunset Maximillian
Tartan Schooner
Tartan Jelicoe Lass

Here's a really neat classic red heifer. Her dam is one we brought all the way from northern BC to get the best from Tatlayoko Fold. "Mel" is expected to be a moderate-framed female with incredible breed character. While we would like her dam to have had a better udder on her second calf, we expect Hickory to have improved that in this heifer based on his dam and paternal sisters. Mel's dam is one of the gentlest, best-footed females in the Highland Spice herd. If you want a striking red with a unique pedigree to show, breed, or just enjoy, Melaleuca is your girl.

Here's a dynamite bull calf in a fun color. He's out of a really nice bodied, large framed cow who is an own daughter of Skye High Convoy. Performance and great maternal genetics on both sides make MeanGreen a perfect choice for adding power, performance and productivity to your breeding program. We have been impressed by MeanGreen's growth, top line, and lovely hip. His dam is an easy-fleshing female with great feet and a good udder with plenty of milk.

Bring heritage and calving ease to your herd with this traditional type Highland bull calf. Merrick's pedigree offers direct Scottish import genetics on the dam side and old-school proven Canadian and US genetics on his sire side. Where else can you find Ben Eniglair of Scone Palace, Yarnelle Farms Betula, Glen Osprey Farms, Cape St. Mary's Fold, EZ Acres and Pitcher Mountain cattle all in the same pedigree in the first few generations? His father, Taunton Maddock, is a phenomenal proven heifer bull with a moderate frame. Maddock's calves are strong and smart at birth. We expect Merrick to follow in his father's footsteps. Anyone who meets his dam, Summit Ranch Gretta, instantly adores her as she is a gem for personality and gentleness. Gretta was shown as a youngster by juniors and always placed very well. Don't miss out on this exciting opportunity! Consigned by Taunton Farms (208)221-5523.

Thorbardin's Lucella (D)
Thorbardin's Hester (D)

We've never seen one quite like Manatee. He was too big at birth to stay a bull but way too awesome to ship with the steers. Built like a bodybuilder, he will make an excellent show steer, pet, or one to make you laugh before he goes in the freezer. AHCA registration upon Buyer's request.

Krawford is a feminine dark dun heifer that looks like she will make a great cow. She is line bred Raymond of High Land Ballaugh, which is the sire to Willow Glen's great Beaugard bull and also the sire to their white Carney bull. Raymond is said to have been an excellent bull with wonderful feet. Krawford offers that concentrated outcross line which is an easy way to diversify, and is an outcross to most Highlands in the USA. Krawford has not been halter broken, but is calm and very easy to handle.

Lotus is that deep dark red that makes most other red cows look dull. Her dam is a daughter of the 2010 NEHCA Grand Champion Bull, Trafalgar Victor, and is a Black Watch Dempsey granddaughter. Lotus' dam showed up on the feed ground this year with a new calf, perfectly dry and already nursed. That's how we like them. Lotus is nervous in the corral but calms down when she is back in the herd, turned out. She will be most comfortable in an operation where she can be a cow, not a pet.

What a flashy heifer! Krumpet is a stunning white heifer full of feminine eye appeal. She offers an exceptional opportunity to expand your herd with Canadian Highland genetics. This heifer has a no-fuss drive to her and is ready to go to work in your herd. Color, balance, fancy, and Canadian outcross value. We can't wait to see her stunning calves in the future! She will be in the AHCA herdbook by sale time. Consigned by Taunton Farms (208)221-5523.

BRED FEMALES

** All bred females were exposed to the following bulls: Hickory of Highland Spice, AHCA Reg. #59533; Emerson of Willow Glen, AHCA Reg. #59528; Liberty of Highland Spice AHCA Reg. #64346; and Lobo of Highland Spice, AHCA Reg. #64488. Parentage of offspring born next year must be determined by DNA against all four bulls to register offspring through AHCA. Where the female was AI bred prior to exposure to any bulls, the AI sire is listed in the lot description. AI bred heifers were bred 7/7/23 and then exposed to the listed bulls. AI bred cows were AI bred 7/13/23 and then exposed to the listed bulls. All AI bred females were exposed to Hickory the first cycle after AI (minus a couple mix-ups). Females that were not AI bred were exposed to the listed bulls from 6/29/23 to 9/11/23 and spent the majority of their summer with Emerson and Liberty. All females listed in this section will be pregnancy checked in late October and the results will be made available on our website.

Kaarina is a classy yellow heifer who gets a lot of compliments for her long wavy blond hair. Kaarina comes from a very respected breeder in MI and will compliment anyone's breeding program. Kaarina has Scottish import, quality Canadian, and National Champion genetics on the sire side and is out of a good producing cow bred by Snowland Livestock. Kaarina was started on the halter as a calf by her breeder. She was AI bred to Hickory with heifer-sex-sorted semen on 7/7/23, then exposed to the listed bulls.

Here's your chance to get an own daughter of Willow Glen Farms' excellent herd sire "Beau". Jela is a maternal sibling to Gooseberry (Lot 28). Like her sister, Jela is easy to handle and rather gentle, but kind of "aloof" when it comes to interacting with people. Jela is a big pretty heifer with really nice feet. She is easy to get along with. Pasture exposed to the listed bulls.

Christine is a royally-bred heifer with Sunset Farm, Drover Hill, Five Star Farm, Ridge Top, Dirtaine Farm cattle in her pedigree. Christine is a rather nervous sort and prefers to be outside and just living her life as a beautiful cow - she is not cuddly enough for a pet-type home. She has a ton of hair. She does not seem affected and has never been sick, but she does have a little cough after being trailed long distances, etc. For this reason she would do best in a more moderate (not hot) climate. Christine was exposed to all listed bulls, but most likely was bred by Emerson or Liberty.

Timber is a full sister to Margosa (Lot 10). Their mother, Flatheads Ostag, stands out because of her beautiful big curled horns and "big body on short legs." Combining Ostag's very productive and early-maturing maternal line with Schon Boden's Levi is sure to have created a maternal powerhouse in Timber. Timber was AI bred to Hickory with heifer-sex-sorted semen on 7/7/23, then exposed to the listed bulls.

Maggie is the daughter of the cutest little dun cow you've ever seen "Mae." Sadly, we lost Mae this year at 18 years old. Maggie is a very good mother and always has her calf with her. She had a touch too much milk this year for the first week after calving, but her teat size has been very good. Maggie weans a nice big calf every year, is easy going, and will follow a bucket of treats pretty much anywhere. Maggie was AI bred 7/13/23 to heifer-sexed Hickory semen and exposed to the listed bulls thereafter.

Mortlach is fairly easy to handle but isn't a pet and will require cattle handling facilities. She hasn't made a wrong move while we have had her, and she produced a really nice calf this year (Matcha, Lot 8). Mortlach was pasture exposed to the listed bulls.

Gooseberry looks like a Highland cow should look. She has an awesome hair coat and dossan down to her chin in the winter. She is thick, well balanced, feminine, and has short powerful legs and good feet. Gooseberry has a lot to offer any breeding program. Her sire is the third son of Uallach Dubh 6th that has influenced our breeding program, and we have been happy with them all. Gooseberry will be a complete outcross to almost

every Highland bull in the USA which provides a lot of opportunities to create good cattle... hopefully cattle that look like her! Gooseberry's weakness is that her udder is not made the best. She has too much milk and large teats. Typically that would send her to a stew pot, but given that she is a drop dead gorgeous cow, we think she has a lot to offer an informed purchaser. Gooseberry was exposed to the listed bulls and is likely bred by Emerson. We believe both Emerson and Hickory will improve udders based on Emerson's progeny and Hickory's dam and maternal siblings. We would recommend AI breeding to Hickory or a bull whose pedigree includes excellent udders. If the buyer wishes to AI next year to Hickory, semen can be sold privately for a reasonable price to the successful bidder.

"Buttercup" is the one you want because she will make you smile every day with her "bed head beautiful" look. What a face! She is a good mom, keeping her calf close and often feeding her calf's best friend as well as her own. Did you see calf she raised this year, as a heifer (Myrtle, Lot 3)! Buttercup has excellent feet and is very gentle. She allows us to brush her in the pasture and is very motivated by treats to follow you anywhere. She was started on the halter as a calf. Buttercup would be an excellent choice for a breeder on a small acreage that wants a friendly cow who will raise really nice calves.

Here's a match for the traditional type Highland folks and genetics geeks. Gidget of Willow Glen is a classic young red cow with tons of dossan and breed character. She is just about as wide as she is tall with short legs and a lot of depth and capacity. Raindancer is a frosted red bull "throwback" from the early 2000's, whose pedigree includes Gille Buidhe of Benmore "the Gene Machine," his son Basswood of Swains (out of a GOF cow) as well as other enchanting old genetics. We cannot imagine a better match and are excited to share these embryos with you. Embryos were created through IVF by Vytelle. Buyer must pay for shipping and make arrangements for embryos to be shipped within 60 days of sale. USA only.

Your 2022 National Champion Bull, a "breed-changing bull." Undeclared as a two-year-old, this friendly, stocky, moderate bull is just as impressive in his every-day clothes. At the 2022 NWSS Hickory weighed 1743 pounds with a REA of 19.74 – over a square inch larger than the Reserve Champion Bull. Hickory's sire was a good-footed, easy-doing bull with limited AHCA progeny. His dam has an excellent udder and feet; genetics that originate in the first Highland Spice herd. Hickory's average calf BW on his Highland Spice calves born in 2023 was 70 lbs. His progeny that are show-age have been winning the big shows all over the country. Five heifer-sexed, ½ cc, 4M concentration straws. Collected and stored at ORigen, Huntley MT. Sexting Technologies (ST) requires that if semen is to be used for ET/IVF and not just AI breeding, that it be used only at approved facilities that report use for IVF/ET to ST.

Keystone has it all! Sire to the 2023 National Grand Champion Female, Kola of Highland Spice. He attained the best of his parents, CBS Yaz's Yukon Jack and Yarnelle Farms Betula. Keystone is a magnificent bull. He is balanced, has a massive amount of muscle, a straight and long back, perfect feet, and he has a crazy thick behind on him. On grass and mineral alone, he weighed in at 2,340 lbs. in Summer 2022. His calves have been moderate in terms of birth weight, easy fleshing, vigorous, and exceptionally docile.
